

PO-LING POWER™

Signature Event & Workshop Series

for building inclusive, collaborative,
and high-performing culture

"The PO-LING POWER™ framework is an accessible set of principles that have helped me, as a CEO of a technology company, lead a team to unprecedented success."

Clayton Banks, Silicon Harlem CEO

Imagine a culture where everyone is focused on propelling their authentic selves, others, and their organization to success while managing what matters. Our PO-LING POWER™ event and workshop series serve as catalysts to unleashing employee potential and empowering a stronger organizational culture with more focus, authenticity, respect, and collaboration. Participants will be armed with a simple, yet powerful evaluation, decision-making, and measurement tool as well as app to help propel individual and organizational success.

Our **90-minute signature event** includes an inspirational and empowering presentation on the PO-LING POWER™ framework, its genesis, and practical application. We also perform a live demo of the PO-LING POWER™ app, working with at least one employee volunteer to demonstrate use case and effectiveness.

Follow-on workshops available for hands-on learning and sustainable implementation by covering the development of personal visions for the authentic self, goal setting, and collaboration to achieve individual and organizational goals with PO-LING POWER™.

"I had the pleasure of working with Betty where she shared her PO-LING POWER™ platform with our company. Betty's story is truly inspirational but her passion for elevating others to achieve their own success is genuine, undeniable and infectious. I applied the principles she outlined in her book and they have added value to my professional practice. I can also attest that others too have applied her principles and has since been promoted to roles of greater responsibility and they too acknowledge Betty in their recent success. Highly recommend connecting with Betty if you are seeking ways to engage your constituency and propel your organization to success."

Robert Barea, Marsh & McLennan Diversity & Inclusion Leader

"I recently had the inspiring opportunity to hear Betty review her innovative PO-LING POWER™ approach in a very interactive and engaging forum. Participants learned a practical and focused approach to setting goals, being held accountable and obtaining feedback and support from trusted personal advisors. An active user of PO-LING POWER™ shared her real-life experience, including how it helped her re-examine her goals and map her path to success."

"Thank you so much Betty for sharing your inspirational story and showing us the powerful and practical tool to succeed! It was indeed a wonderful and productive session!"

Diana Y. Pae, Archegos Capital Management Co-President
